

En route to 2030 – eTwinning project: deadlines & project activities 2021 – '22

Time	Activity	Teachers	Students
November / December	1. Introduce the UN and the 17 SDG.	1) Introduce students with our eTwinning project, and ask parents for authorizations. (photos posted on the Twinspace...) + Register students on the Twinspace	1) Discuss with your family about the project
		1. Introduction to the project, the UN and the 17 SDG: https://dehandelsschoolaalst.sharepoint.com/sites/Enroute2030-Sustainabledevelopmentgoals --> When you go to 'pages', task 2.4, you find videos to learn more about the 17 SDG. --> When you go to the forum, you can answer the question of how you can link the 17 SDG to your life. To view the tasks, go to Office 365 and log in with tclass@handelsschoolaalst.be - TeamsClass9300	
	2. The 17 SDG in my life: Students think about how the 17 SDG are linked to their lives.	1) Introduce the theme of sustainable development in relation to the 2030 UN Agenda.	1) Understand the concept of sustainable development in relation to the 2030 agenda (issues, what should we do? objectives to work on...)
			Write in a Sway or other digital tool, using pictures, how you can link the goals to your life and ideas.
January	1. Logo contest	2) Explain Task 2: Logo contest ! Prepare a logo for our eTwinning project EN ROUTE TO 2030. → Vote for the three best logos in each school. → Then we will organise an international vote and choose the best logo for the project using Tricider. Show your students how to work with Canva (or another tool)	2) Create a logo for the project THEN: - School vote: vote for the three best logos in your school - International vote: vote for the best logo for our project EN ROUTE TO 2030.
		All teachers put the best 3 logos on Tricider.	
		2) Show students the Padlet	2) Post on the Padlet your presentation + school's presentation

	2. Students' presentations in padlet	https://padlet.com/MissBaudot/xxtu0ednb6z3qnos (it will be iframed on the Twinspace) Explain task 1: Introduce yourself to other partners and present your school. (there can be videos, texts, images, photographs, quiz, VOKI...)	introduce yourself Tell something about yourself in at least 3 paragraphs. Keep it short and interesting. Don't lose yourself into details. Name, age, study direction, where you live, languages you can speak, hobbies, fun facts, likes & dislikes, your favourite... Have you ever heard about the UN and the sustainable development goals? Are you positive or negative about the future of the world? Why? Your school - n° of students?, English classroom?, photograph of the class? any interesting information, photographs / videos... Your city - n° of inhabitants, location + map, any interesting information, photographs / videos...
February	2. Forum discussion (topic 1)	3) Deepen knowledge on sustainable development in relation to the 2030 UN Agenda through texts, videos, images... The goal will be for students to understand what sustainable development is, different issues, solutions to find, United Nation objectives, why... (we need to define this together)	
	1. Online meeting	Prepare students to the meeting and explain the forum topic 1 will be discussed.	
	3. Creating international teams to discover and explore one SDG in detail.	4) Explain to students that they will deepen their knowledge on one particular goal, so they need to choose the goal they would like to work on. All the 17 goals will probably not be chosen but let's try to have as many goals as possible.	4) Choose one goal you would like to work on
		3) Post on the twinspace lists of all the students according to the goal they have chosen. Students will create international	3) Take a look at the list on the Twinspace, and create international teams. You may use

		teams. To help them find international partners they can use the padlet with students' presentations + Forum thread "Partner finding" for each goal chosen ? Is there a limited number of students per team ?	the presentations on the padlet + forum to help you find partners.
		4) Once they have created an international team: on the twinspace: Maybe we can imagine creating threads in the forum so that students can discuss in international teams (see example below) (this will be developed probably in February / March?	To achieve your goal and create ONE single infographics (or something else) as a TEAM, you will need to discuss ideas, exchange points of view, agree (and sometimes agree to disagree and find some compromise!), and most importantly support and encourage each other! This is the right place for this. Forum 1: Goal 1 : no poverty + GROUP n°.... (we can replace GROUP n° by "NAME OF THE TEAM" when students will have chosen a group name: -> This is your team's forum thread. Use colours, links, bullet points... to make communication clear and easy. Make sure you choose a name for your team. Make sure you also choose one international coordinator per group. + add a google document where students can share their ideas, documents, images, graphs...) (this can be completed with further explanations / recommendations to students Forum 2: Goal 2: zero hunger.....
March / April	1. Online meetings & participating in the		

	international teams		
May	1. Presentations of the SDG of the international teams		To achieve your goal and create ONE single infographics (or something else) as a TEAM, you will need to discuss ideas, exchange points of view, agree (and sometimes agree to disagree and find some compromise!), and most importantly support and encourage each other! This is the right place for this. Forum 1: Goal 1 : no poverty + GROUP n°.... (we can replace GROUP n° by "NAME OF THE TEAM" when students will have chosen a group name: -> This is your team's forum thread. Use colours, links, bullet points... to make communication clear and easy. Make sure you choose a name for your team. Make sure you also choose one international coordinator per group. + add a google document where students can share their ideas, documents, images, graphs...) (this can be completed with further explanations / recommendations to students Forum 2: Goal 2: zero hunger.....
	2. Online meeting		
	3. Forum discussion (topic 2)
